Stated capital

The Bank's Stated Capital relating to Ordinary Shares increased from GH¢1,044,615 in 2024 to GH¢3,171,825 in 2025; recording an increase of GH¢2,127,210 and representing GH¢0.10 per share as at close of the year. The number of issued shares also increased from 10,446,152 to 31,718,252 showing an increase of 21,272,100. The Bank has complied with the minimum stated capital requirement of GH¢1.0 million for rural and community banks as directed by the Bank of Ghana.

**REPORT OF THE DIRECTORS TO THE MEMBERS OF
SEKYEDUMASE RURAL BANK PLC**

Dividend

The Board do not recommend the payment of dividend for the current year in line with Bank of Ghana directive (Notice No. BG/GOV/SEC/2020/03) instructing all rural and community banks not to declare and pay dividends.

Directors capacity

The directors attended training programs during the year to build their capacity in accordance with section 136 of the Companies Act, 2019 (Act 992).

Corporate social responsibility

The bank engaged in the following corporate social responsibilities during the year.

Activities	Amount GH¢
Asokore Mampong Municipal Assembly - Farmers Day	1,000
Oforikrom Municipal Assembly - Farmers Day	1,000
Ejura Sekyedumase Municipal Assembly - Farmers Day	3,000
Afigya Kwabre North District - Farmers Day	1,000
Najahyia Islamic School - White Marker Boards	4,982
Anyinasu Divisional Council - Fifty (50) Bags of Cement	4,850
Ejura Traditional Council - Yam Festival	1,000
	16,832

Board meetings

The bank held three (3) board meetings during the year and an Annual General Meeting (AGM) on 8th August, 2025 in accordance with the Bank of Ghana directives. Attendance at the meetings were as follows;

Member	Board Meeting	AGM
Emmanuel Kofi Antwi	3/3	1/1
Mathew Kojo Njourkone	3/3	1/1
Eric Marfo	3/3	1/1
Joseph Oduro Brenya	3/3	1/1
Martin Acheampong	3/3	1/1

Directors representation

The Board confirms that no matters have arisen since 31 December, 2025 which materially affect the financial statements as presented.

Audit fees

The audit fees payable during the year is as stated in Note 12 of the financial statements. The Auditors, Donaldy Associates, Chartered Accountants, will continue in office in accordance with section 139 (5) of the Companies Act, 2019 (Act 992).

Interest register

During the year ended 31 December 2025 no contract was entered into which the directors of the bank had an interest that affected the business of the bank.

Significant development

i. Government of Ghana Domestic Debt Exchange (GDDE)

The Government of Ghana (GoG) introduced Ghana Domestic Debt Exchange (GDDE) programme on 5th December, 2023 for the conversion of existing domestic bonds and E.S.L.A. loans for new ones.

Under the programme, bondholders were put into three categories. They are:

1. Category A: Natural persons less than 59 years old plus collective investment schemes;
2. Category B: Natural persons of 59 years old and above;
3. Category C: Holders who are not under Category A or B but include financial institutions.

**REPORT OF THE DIRECTORS TO THE MEMBERS OF
SEKYEDUMASE RURAL BANK PLC**

The bank fell under Category C and was to receive:

- a. New bonds for securities which were due in 2023;
- b. Interest on the new bonds would be accrued and capitalized up to 10th February, 2025;
- c. Government of Ghana will not make principal payments on the eligible bonds maturing before the settlement date.

ii. The financial impact on the bank

The bank tendered its old eligible bonds of GH¢4.0 million plus accrued interest for a set of twelve new bonds. Due to the issuer (GOG) of the bonds being financially challenged the new bonds were considered credit impaired. IFRS 9 requires that the new bonds be placed under stage three for impairment. The impairment assessment was done by discounting the cash flows under the new bond using the Institute of Chartered Accountants Ghana (ICAG) recommended discount factor and comparing the same with the carrying amount of the old bonds.

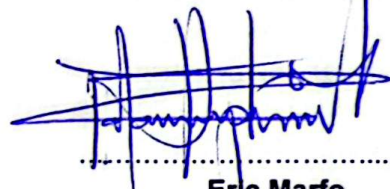

The disclosure of the impairment on the financial assets resulted in an impairment loss of GH¢1,092,981 as indicates in Note 17 (f).

Approval of the financial statements

The financial statements were approved by the Board on 18th March, 2026 and were signed on their behalf by the following:

.....
Mathew Kojo Njourkone
Chairman

.....
Eric Marfo
Vice Chairman

SEKYEDUMASE RURAL BANK PLC
CORPORATE GOVERNANCE OVERVIEW

Sekyedumase Rural Bank PLC operates in accordance with the principles and practices on corporate governance guided by the Corporate Governance Directive of May 2021 and the Fit and Proper Persons Directive 2019 issued by the Bank of Ghana, as well as the Code of Best Practices in Corporate Governance.

The objectives of the bank's corporate governance are:

- i. To enable the bank undertake licensed business in a sustainable manner;
- ii. To promote the interest of depositors and other stakeholders by enhancing performance and accountability;
- iii. To promote and maintain public trust and confidence;
- iv. To maximise shareholders' value and interest;
- v. To enhance transparency and market discipline and
- vi. To enhance the accountability of the bank to its shareholders.

These objectives have been articulated in a number of corporate documents, including the bank's regulations, a board charter, rules of procedures for boards, a code of conduct for directors and rules of business ethics for staff.

The board of directors

The Board is responsible for setting the bank's strategic direction, leading and controlling the institution and monitoring activities of the executive management. As of 31 December 2025, the Board of Directors of Sekyedumase Rural Bank PLC consisted of five (5) Non-Executive Directors. This is in compliance with section 29 of the Corporate Governance Directive. The board members have wide experience and in-depth knowledge in management, industry, technology and financial markets which enables them to make informed decisions and valuable contributions to the company's progress. The Board met three (3) times during the year excluding the Annual General Meeting.

Schedule of board meetings held in 2025

Attendance at the meetings are as follows:

Member	Board Meeting	Annual General Meeting (AGM)
Emmanuel Kofi Antwi	3/3	1/1
Mathew Kojo Njourkone	3/3	1/1
Eric Marfo	3/3	1/1
Joseph Oduro Brenya	3/3	1/1
Martin Acheampong	3/3	1/1

The board has overall responsibility for the bank, including approving and overseeing the implementation of the strategic objectives, risk strategy, corporate governance and corporate values. According to Part V of the Fit and Proper Directive; the Board is responsible for appointing and providing oversight of senior management and ensures a well-structured and rigorous selection process in line with the fit and proper directive is in place.

The board and its committees

The Board is accountable for the long-term success of the bank and it is responsible for ensuring leadership, approving strategy, and ensuring that the bank is suitably resourced to achieve its strategic aspirations. In doing so, the Board considers its responsibilities to, and the impact of its decisions on its stakeholders including shareholders, employees, customers, suppliers, the environment and the communities the company operates in.

The Board also delegates certain responsibilities to its committees to ensure its independent oversight. In addition, the Board also delegates authority for the operational management of the bank to the Chief Executive Officer and Management in respect of matters which are necessary for the day to day running of the bank.

SEKYEDUMASE RURAL BANK PLC
CORPORATE GOVERNANCE OVERVIEW

The Board remains very diverse with a distinctive mixture of backgrounds, experience and skills. Risk and governance, shareholder and stakeholder relationships, strategy and budget, financial performance oversight, business development and people were some of the key activities the Board focused its time on during the year as it provided guidance to Management in steering the bank.

Board roles and key responsibilities

Chairman

The Chairman is responsible for leading the Board and its overall effectiveness and governance, promoting a high standard of integrity and ensuring effective communication between the board, management, shareholders and other stakeholders.

Chief Executive Officer

The Chief Executive Officer is responsible for managing all aspects of the bank's businesses, developing strategies in conjunction with the chairman and the Board and leading its implementation.

Board of Directors

The board ensures the success of the bank by setting the strategic direction, establish the risk appetite and continuously monitor and improve the banks' performance so as to protect depositors' interest and enhance shareholders' value.

Board committees

The Board made a conscious decision to delegate a broader range of issues to the Board Committees, namely Finance, Audit, Risk and Compliance, Credit and Human Capital. The linkages between the Committees and the Board are critical for the smooth running of the bank. The Board duly received minutes and updates from each of the Committee's meetings throughout the reporting period. The bank has an effective mechanism in place to ensure that there are no gaps or unnecessary duplication between the remit of each committee.

Finance, audit and compliance committee

The Finance Committee is mandated to assist the Board in providing strategic direction for the bank and see to the implementation of the bank's strategy. It also reviews the financial, operational and business performance of the bank and makes recommendations to the board on ways to improve the performance of the bank.

The Committee reviews the bank's capital structure and annual capital plan, including its capital adequacy and capital planning process, stress-testing and related activities, capital raising, capital distributions and recommend to the Board for approval of the annual capital plan and capital management policy. Again, it reviews the annual budget and makes recommendations for the Boards' approval.

The Board Audit Committee is mandated to review and approve the bank's Risk Policies; set a risk appetite or tolerance and strategy including Anti-Money Laundering/Counter Financing of Terrorism (AML/CFT) within which management is required to develop business strategy or plans, objectives and targets for achievement. The Committee is to advise the Board on the recommended risk strategy or appetite within which its business is to be conducted. Again, the Committee oversees and advises the Board on the current risk exposures of the bank and future risk strategy.

SEKYEDUMASE RURAL BANK PLC

CORPORATE GOVERNANCE OVERVIEW

Schedule of finance, audit and compliance committee's meetings held in 2025

Attendance at the meeting is as follows:

Member	Committee Meeting
Martin Acheampong	3/3
Eric Marfo	3/3
Joseph Oduro Brenya	3/3

Credit, risk and procurement committee

The Credit, Risk and Procurement Committee has oversight responsibilities on behalf of the Board for the approval of credit facilities for the bank. The role of this Committee includes but are not limited to the following: considering and approving specific loans above the Management Credit Committee's authority limit, as determined by the Board from time to time; reviewing Management Credit Committee's authority level as and when deemed necessary and recommending new levels to the Board for consideration; conducting quarterly review of credits granted by the bank to ensure compliance with the bank's internal control systems and credit approval procedures; reviewing the bank's internal control procedures in relation to credit risk assets and ensuring that they are sufficient to safeguard the quality of the bank's risk assets. The Credit Committee is made up of independent directors and all members are non-executive directors.

Schedule of credit, risk and procurement committee's meetings held in 2025

Attendance at the meeting is as follows:

Member	Committee Meeting
Mathew Kojo Njourkone	14/14
Eric Marfo	14/14
Martin Acheampong	14/14

Administration, human resource and disciplinary committee

Administration, Human Resource and Disciplinary Committee's main responsibilities includes proposing and making recommendations on human resource issues and matters relating to terms and appointment of senior management and staff of the bank. The Board and management evaluate annually the performance of the Board, its committees, and individual members.

Schedule of administration, human resource and disciplinary committee's meetings held in 2025

Attendance at the meetings are as follows:

Member	Committee Meeting
Eric Marfo	3/3
Mathew Kojo Njourkone	3/3
Joseph Oduro Brenya	3/3

Code of conduct

As part of the bank's corporate governance practice, management has communicated the principles of the bank's code of conduct to all employees. The code of conduct provides a basic framework and guidance for behaviours and business conduct. The code of conduct also serves as a reference point in all aspects of employee's working relationships with other employees, customers, suppliers, government officials, regulators, joint venture partners, competitors and the broader community.

Recruitment, induction and training of new directors

Individuals selected to be members of the Board have an appropriate diversity of skills and come from backgrounds necessary to provide the needed direction for the bank. All new directors to the board are provided with a letter of appointment stating clearly the terms which shall govern their appointment after all the necessary regulatory approvals have been received with respect to the changes.

SEKYEDUMASE RURAL BANK PLC
CORPORATE GOVERNANCE OVERVIEW

The term of the directors is governed by the Bank of Ghana corporate governance directives, which limits the maximum period of service for the chairperson to six years and other members to nine years. New board members participate in a comprehensive induction program covering the bank's financial, strategic, operational and risk management overviews to enable them effectively discharge their duties and responsibilities.

Board qualifications and composition

In accordance with section 19 of the Directive, all Board members are qualified for the position and remain qualified through training, for their positions. They have a clear understanding of their role in corporate governance and are able to exercise sound and objective judgement about the affairs of the bank. They also possess, individually and collectively, appropriate experience, competencies and personal qualities, including professionalism and integrity.

Remuneration structure

Directors receive fixed fees for serving on the Board and its sub-committees in line with approval from shareholders at the annual general meeting. The Board members' remuneration is approved by the shareholders at the annual general meeting.

Board performance evaluation

The Board hereby certifies that it has complied with section 46 & 47 of the Directive on Board evaluation as well as AML/CFT Evaluation.

Business strategy

In the year under review the Board approved and monitored the overall business strategy of the bank, taking into account the long-term financial interest of the bank, its exposure to risk, and its ability to manage risk effectively. This was in line with section 13 of the Directive.

Risk management and internal controls

The Board has put an effective internal control system in accordance with the Directive and has a risk management in place. The key management personnel holding these roles have sufficient authority, stature, independence, resources and access to the board. Internal controls have been designed to ensure that each key risk has a policy, process or other measure, as well as a control to ensure that such policy, process or other measure is being applied and work as intended. In accordance with section 50 of the Directive, the bank also has an Internal Auditor who has no involvement in the day-to-day activities and business line responsibilities of the bank. He has the professional competence to collect and analyse financial information as well as evaluate audit evidence and communicate with the stakeholders of the internal audit function. He possesses sufficient knowledge of auditing techniques and methodologies and reports directly to the Audit Committee and has direct access to the board. The Board recognizes the importance of external auditors as vital to the corporate governance process and continue to engage the services of Donaldy Associates, Chartered Accountants; an independent, competent and qualified external auditor, to undertake this function.

Key management oversight

In accordance with section 49 of the Directive, the Board ensures that, the activities of Key Management Personnel are consistent with the business strategy and policies approved by the Board, including the risk tolerance/appetite. The Board has established a management structure that promotes accountability and transparency and oversees the implementation of appropriate systems for managing risks – both financial and non-financial to which the bank is exposed.

The bank has engaged skilled and competent staff and provides training and development opportunities to sustain the delivery of short and long-term business objectives and the risk management framework that protects the reputation of the bank.

SEKYEDUMASE RURAL BANK PLC
CORPORATE GOVERNANCE OVERVIEW

Policy for succession management and the current talent pool for key management personnel

Section 15 and 16 of the Directive, directs the bank to continue to pursue a robust talent and succession management process, knowing that our success is hinged on our ability to attract and retain the best talent in the industry, whilst maintaining a bench strength that ensures seamless leadership continuity. The bank promotes a culture of regularly reviewing and refreshing the succession pipeline to align with the fluid nature of the current talent landscape. Business Unit Heads have been empowered to own the succession management process end-to-end in their respective businesses. Executive Management's sponsorship and oversight of the process has ensured accountability from Business Heads across the bank. Our succession planning process prioritizes all critical roles at all levels in the organization; to ensure business and leadership continuity.

Corporate culture and values

The bank has established a corporate culture and values that promote and reinforces norms for responsible and ethical behaviour in terms of the bank's risk awareness, risk-taking and risk management in accordance with section 14 of the Directive. This is achieved by the bank through its board members setting and adhering to corporate values for itself. Key management and employees also create expectations that business should be conducted in a legal and ethical manner at all times. The corporate values, professional standards it sets together with supporting policies and appropriate sanctions for unacceptable behaviour are communicated to all employees.

Related party transactions

The Board has in place policies and procedures to ensure that all related party transactions are carried out at arm's length in accordance with the Directive and in accordance with the Banks and Specialized Deposit-Taking Institutions Act, 2016 (Act 930). This is intended to ensure that there is no favourable treatment given to a related party. Therefore, in any connected transactions the bank ensures all the necessary approvals are obtained prior to the execution of the transaction.

Separation of powers

There is clearly in place a division of responsibilities between the positions of the Board Chair and the Chief Executive Officer in accordance with section 17 of the Directive.

Conflict of interest

The bank's directors have a statutory duty not to place themselves in a position which gives rise to a real or substantial possibility of conflict of interest or duty in relation to any matter which is, or is likely to be brought, before the board. At no time during the year did any director hold a material interest in any contract of significance with the bank. The Board reviews actual or potential conflicts of interest annually.

Anti-money laundering

The bank has established an anti-money laundering system in compliance with the requirements of the Anti-Money Laundering Act 2020 (Act 1044). These include due diligence for opening new accounts, customer identification, monitoring of high-risk accounts, record keeping and training of staff on money laundering which assist in reducing regulatory and reputational risk to its business.

Compliance declaration

The board declares that the bank has complied with the Corporate Governance Directive for Rural and Community Banks.

**REPORT OF THE INDEPENDENT AUDITORS TO THE SHAREHOLDERS OF
SEKYEDUMASE RURAL BANK PLC
ON THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER, 2025**

Opinion

In our opinion, the financial statements give a true and fair view of the financial position of Sekyedumase Rural Bank PLC as at 31 December, 2025 and of its financial performance, changes in equity and its cash flows for the year ended in accordance with the International Financial Reporting Standards (IFRS) and in the manner required by the Companies Act, 2019 (Act 992) and the Banks and Specialised Deposit-Taking Institutions Act, 2016 (Act 930).

What we have audited

We have audited the financial statements of Sekyedumase Rural Bank PLC for the year ended 31 December, 2025. The financial statements comprise:

- Statement of financial position as at 31 December, 2025;
- Statement of profit or loss and other comprehensive income for the year then ended;
- Statement of changes in equity for the year then ended;
- Statement of cash flows for the year then ended; and
- Notes to the financial statements, which include a summary of significant accounting policies.

Basis for our opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Bank in accordance with the International Code of Ethics for Professional Accountants (including International Independence Standards) (the code) issued by the International Ethics Standards Board of Accountants (IESBA) and we have fulfilled our ethical responsibilities in accordance with the Code.

Key audit matters

Key Audit Matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current year. These matters were addressed in the context of our audit of the bank's financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matters:

(a) Impairment of loans and advances	How our audit addressed the key audit matters
<p>The Bank continues to adopt IFRS 9 - Financial Instruments during the period, which requires the measurement of expected credit loss allowance for financial assets measured at amortized cost and fair value through other comprehensive income. The Bank reviews its loans and advances for impairment at the end of each reporting period. There are significant judgements made in the following areas in applying IFRS 9 - Financial Instruments.</p> <p>These include:</p> <p>Determining the stage of the financial assets and establishing groups of similar financial assets; determining the criteria for significant increase in credit risk; determining the Probability of Default (PD) and Loss Given Default (LGD) and Expected Credit Loss (ECL) for each type of loan and applying Bank of Ghana Loan classification criteria.</p> <p>Due to the significant judgements that are applied by management in determining whether an impairment loss has occurred, we considered this to be key audit risk. The bank is also required to compute loan provision in accordance with the Bank of Ghana (BOG) prudential guidelines. There is the risk of inappropriate classification of loans and advances in accordance with BOG's guidelines that results in inaccurate loan impairment computations.</p> <p>The bank is also required to make transfers from income surplus to regulatory credit risk reserve based on the excesses of BoG impairment over IFRS provision.</p> <p>The disclosures relating to impairment of loans and advances to customers are considered important to users of the financial statements given the level of judgement and estimation involved.</p>	<p>We evaluated the design and tested the implementation and operating effectiveness of the key controls over the computation of impairment loss.</p> <p>In evaluating the design of controls, we considered the appropriateness of the control considering the nature and significance of the risk, competence and authority of person(s) performing the control, frequency and consistency with which the control is performed.</p> <p>In performing operating effectiveness of controls, we selected a sample of transactions based on the control frequency to determine whether the control operated during the year.</p> <p>We performed an evaluation of management's key assumptions over the expected credit loss model (ECL), including the probability of default (PD) and the loss given default (LGD).</p> <p>We challenged management's staging of its financial assets in the ECL module and tested facilities to ensure they have been included in the correct stage.</p> <p>We tested the underlying data behind the determination of the probability of default by agreeing same to underlying supporting documentations.</p> <p>We found that the assumption used by management were comparable with historical performance and have been assessed as reasonable.</p> <p>We further assessed as appropriate the classification of the Bank's loans and advances in accordance with Bank of Ghana prudential guidelines and the possible transfer of any excess provision over the IFRS computed provisions to the regulatory Credit Risk Reserve.</p>
<p>(b) Investments</p> <p>We draw attention to note 17a. of the financial statements which indicates that the bank has investments in fixed deposits of GH¢5,746,746 with certain fund management institutions.</p> <p>Repayments from these institutions have been a challenge; however, there is an assurance from the board of those institutions that it would be repaid. Management has fully impaired these investments.</p>	<p>We reviewed the status of the investments and the full impairment made by management during the year and found that the assumptions used were reasonable and in compliance with Bank of Ghana guidelines and policies of the bank.</p>

**(c) Investment in Government Bonds,
Treasury Bills and Cocoa Bills**

We draw attention to note 17e, 18a and 17c of the statements which indicate that the bank has investments in Government of Ghana Bonds, Treasury Bills and Cocoa Bills of GH¢4,237,004, GH¢93,348,716 and GH¢2,343,808 respectively through ARB Apex Bank and GCB Bank.

Management made an impairment assessment on these investments. This resulted in an impairment of GH¢1,092,981, GH¢340,916 and GH¢1,171,904 on the Bonds, Treasury Bills and Cocoa Bills respectively. This was done by discounting the cash flows of the principals and interests under the new bonds, treasury bills and cocoa bills and comparing the same with the carrying amounts of the instruments.

We reviewed the status of the investments and the impairment made by management during the year and found that the assumptions used were reasonable and in compliance with Bank of Ghana guidelines, other directives and policies of the bank.

Other information

The directors are responsible for the other information. The other information comprises the Directors' Report, Chairman's Report and Corporate Governance Report but it does not include the Bank's financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If based on the work we have performed on the other information, we conclude that there is a material misstatement, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Statements

The directors are responsible for the preparation of the financial statements that give a true and fair view in accordance with International Financial Reporting Standards (IFRS) and in the manner required by the Companies Act, 2019 (Act 992) and the Banks and Specialised Deposit-Taking Institutions Act, 2016 (Act 930) and for such internal controls as directors determine are necessary to enable the preparation of financial statements that are free from material misstatements, due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the bank's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the board either intends to liquidate the bank or to cease operations, or have no alternative but to do so.

Auditors Responsibility for the audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatements, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but it is not a guarantee that an audit conducted in accordance with the ISAs will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. As part of the audit in accordance with the ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatements of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the bank's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the Board's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the bank's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the bank to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in the manner that achieves fair presentation.
- We communicate with directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal controls that we identify during our audit.
- We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be brought to bear on our independence, and where applicable, related safeguards.
- From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report.

Report on Other Legal and Regulatory Requirements

The Companies Act, 2019 (Act 992) requires that in carrying out our audit we consider and report on the following matters. We confirm that:

- a) We have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
- b) In our opinion, proper books of account have been kept by the Bank in so far as appears from our examination of those books and proper returns adequate for the purpose of our audit have been received.
- c) The statement financial position and statement of profit or loss and other comprehensive income are in agreement with the books of account;
- d) In our opinion, the financial statements give the information required by the Act and give a true and fair view.
- e) We are independent of the bank in accordance with Section 143 of the Companies Act, 2019 (Act 992).

The Banks and Specialised Deposit-Taking Institutions Act, 2016 (Act 930) Section 85 (2) requires that we state certain matters in our report. We hereby state that :

a) The financial statements give a true and fair view of the state of affairs of the Bank and the results of its operations for the period under review;

b) We obtained all the information and explanations required for the efficient performance of our duties as auditors;

c) The Bank's transactions were within its powers;

d) The Bank has generally complied with the provisions of the Anti-Money Laundering Act, 2020 (Act 1044), the Anti-Terrorism Act, 2008 (Act 762) and the Regulations made under these enactments; and

e) The Bank has generally complied with the provisions of the Banks and Specialised Deposit-Taking Institutions Act, 2016 (Act 930).

The engagement partner on the audit resulting in this independent auditor's report is Dr. Robert Donaldy (ICAG/P/1113)

SEKYEDUMASE RURAL BANK PLC
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED 31 DECEMBER, 2025

Reporting entity

Sekyedumase Rural Bank PLC is a limited liability company incorporated in Ghana under the Companies Act, 2019 (Act 992). The address of the registered office of the bank is Bank of Ghana Building, Palace Road Sekyedumase, P.O. Box S 21, Sekyedumase-Ashanti. The bank is authorised and licensed to provide rural banking services.

Basis of preparation

a) Statement of compliance

The financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB). The financial statements also comply with the requirements of the Companies Act, 2019 (Act 992) and Banks and Specialised Deposit-Taking Institutions Act, 2016 (Act 930).

b) Basis of measurement

The financial statements have been prepared on the historical cost basis except otherwise stated.

c) Functional and presentational currency

The financial statements are presented in Ghana Cedis (GH¢), which is the Bank's functional and presentational currency.

d) Use of estimates and judgements

The preparation of financial statements in conformity with IFRS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected. In particular, information about significant areas of estimation uncertainty and critical judgements in applying accounting policies that have the most significant effect on the amount recognised in the financial statements are described in the notes.

Significant accounting policies

The significant accounting policies set out below have been applied consistently to all periods presented in these financial statements.

a) Interest

Interest revenue is generally recognised when future economic benefits of the underlying assets will flow to the entity and it can be reliably measured. It is income derived from use of an entity's assets and hence the interest is mostly dependent on the underlying agreement. Interest income and expense are however generally recognised in the income statement on straight-line basis using the effective interest method. The effective interest rate is the rate that exactly discounts the estimated future cash payments and receipts through the expected life of the financial asset or liability (or, where appropriate, a shorter period) to the carrying amount of the financial asset or liability.

The calculation of the effective interest rate includes all fees paid or received, transaction costs, and discounts or premiums that are an integral part of the effective interest rate. Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or liability. Interest income and expense presented in the P&L and OCI include:

- Interest on financial assets and liabilities at amortised cost on an effective interest rate basis and
- Interest on available-for-sale investment securities on an effective interest basis.

SEKYEDUMASE RURAL BANK PLC
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED 31 DECEMBER, 2025

b) Fees and commissions

Fees and Commission income and expenses that are integral to the effective interest rate on a financial asset or liability are included in the measurement of the effective interest rate.

Other fees and commission income, including account servicing fees and special statement request are recognised as the related services are performed. When a loan commitment is not expected to result in the draw-down of a loan, loan commitment fees are recognised on a straight-line basis over the commitment period.

Other fees and commission expense relates mainly to transaction and service fees, which are expensed as the services are received.

c) Other income

Other income including recoverable stationery and cheque clearing fees are recognised as and when they are earned.

d) Right of use

Payments made for office rent are recognised in profit or loss on a straight-line basis over the term of the lease after discounting it over the lease period. Contingent Lease payments are accounted for by revising the minimum lease payments over the remaining term of the lease when the lease adjustment is confirmed.

e) Income tax expense

Income tax expense comprises current and deferred tax. Income tax expense is recognised in the P&L/OCI except to the extent that it relates to items recognized directly in equity, in which case it is recognised in equity. Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantially enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years. Deferred tax is provided using temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax is not recognised for the following temporary differences: the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit to the extent that they probably will not reverse in the foreseeable future.

Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences they reverse, based on the laws that have been enacted or substantively enacted by the reporting date.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised. Additional income taxes that arise from the distribution of dividends are recognised at the same time as the liability to pay the related dividend is recognised.

f) Financial assets and liabilities

i) Recognition

The Bank initially recognises loans and advances, deposits and debt securities issued on the date that they are originated. All other financial assets and liabilities (including assets and liabilities designated at fair value through profit or loss are initially recognised on the trade date at which the Bank becomes a party to the contractual provisions of the instrument.

ii) De-recognition

The Bank de-recognises a financial asset when the contractual rights to the cash flows from the asset expire or it transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred. Any interest in transferred financial asset that is created or retained by the Bank is recognised as a separate asset or liability. The Bank de-recognises a financial liability when its contractual obligations are discharged or cancelled or expired.

SEKYEDUMASE RURAL BANK PLC
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED 31 DECEMBER, 2025

The Bank enters into transactions whereby it transfers assets recognised on its balance sheet, but retains all risks and rewards of the transferred assets or a portion of them. If all or substantially all risks and rewards are retained, then the transferred assets are not de-recognised from the balance sheet. Transfers of assets with retention of all or substantially all risks and rewards include, for example, securities lending and repurchase transactions.

iii) Offsetting

Financial assets and liabilities are set off and the net amount presented in the financial position when, and only when, the Bank has a legally enforceable right to set off the amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously. Income and expenses are presented on a net basis only when permitted by the accounting standards, or for gains and losses arising from similar transactions.

iv) Amortised cost measurement

The amortised cost of a financial asset or liability is the amount at which the financial asset or liability is measured at initial recognition, minus principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between the initial amount recognised and the maturity amount, minus any reduction for impairment.

v) Fair value measurement

The determination of fair values of financial assets and financial liabilities is based on quoted market prices or dealer price quotations for financial instruments traded in active markets. For all other financial instruments fair value is determined by using valuation techniques. Valuation techniques include net present value techniques, the discounted cash flow method, comparison to similar instruments for which market observable prices exist and valuation models.

vi) Identification and measurement of impairment

At each reporting date the Bank assesses whether there is objective evidence that financial assets not carried at fair value through profit or loss are impaired. Financial assets are impaired when objective evidence demonstrates that a loss event has occurred after the initial recognition of the asset, and that the loss event has an impact on the future cash flows on the asset that can be estimated reliably.

The Bank considers evidence of impairment at both an individual and collective level. All individual significant financial assets are assessed for specific impairment. All significant assets found not to be specifically impaired are then collectively assessed for any impairment that has been incurred but not yet identified. Assets that are not individually significant are then collectively assessed for impairment by grouping together financial assets (carried at amortised cost) with similar risk characteristics.

Objective evidence that financial assets (including equity securities) are impaired can include default or delinquency by a borrower, restructuring of a loan or advance by the Bank on terms that the Bank would not otherwise consider, indications that a borrower or issuer will enter bankruptcy, the disappearance of an active market for a security, or other observable data relating to a group of assets such as adverse changes in the payment status of borrowers or issuers, or economic conditions that correlate with defaults in the group.

In assessing collective impairment the bank uses statistical modelling of historical trends of the probability of default, timing of recoveries and the amount of loss incurred, adjusted for management's judgement as to whether current economic and credit conditions are such that the actual losses are likely to be greater or less than suggested by historical modelling. Default rates, loss rates and the expected timing of future recoveries are regularly benchmarked against actual outcomes to ensure that they remain appropriate.

Impairment losses on assets carried at amortised cost are measured as the difference between the carrying amount of the financial assets and the present value of estimated cash flows discounted at the assets' original effective interest rate. Losses are recognised in profit or loss and reflected in an allowance account against loans and advances. Interest on the impaired asset continues to be recognised on the unimpaired portion through the unwinding of the discount. When a subsequent event causes the amount

SEKYEDUMASE RURAL BANK PLC
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED 31 DECEMBER, 2025

of impairment loss to decrease, the impairment loss is reversed through profit or loss.

Impairment losses on available-for-sale investment securities are recognised by transferring the difference between the amortised acquisition cost net of any principal repayment and amortisation and current fair value, less any impairment loss previously recognised in profit or loss out of equity to profit or loss. When a subsequent event that can be related to the event causes the amount of impairment loss on an available-for-sale debt security to decrease, the impairment loss is reversed through profit or loss, otherwise, the decrease is recognised through OCI.

However, any subsequent recovery in the fair value of an impaired available-for-sale equity security is recognised directly in equity. Changes in impairment provisions attributable to time value are reflected as component of interest income.

vii) Designation at fair value through profit or loss

The Bank has designated financial assets and liabilities at fair value through profit or loss when either:

- the assets or liabilities are managed, evaluated and reported internally on a fair value basis;
- the designation eliminates or significantly reduces an accounting mismatch which would otherwise arise; or
- the asset or liability contains an embedded derivative that significantly modifies the cash flows that would otherwise be required under the contract.

The notes sets out the amount of each class of financial asset or liability that has been designated at fair value through profit or loss. A description of the basis for each designation is set out in the note for the relevant asset or liability class.

g) Cash and cash equivalents

Cash and cash equivalents include notes and coins on hand, unrestricted balances held with ARB Apex Bank and Other Banks and highly liquid financial assets with original maturities of less than three months, which are subject to insignificant risk of changes in their fair value, and are used by the Bank in the management of its short-term commitments.

Cash and cash equivalents are carried at amortised cost or fair values in the statement of financial position depending on the business model for managing the asset or the cash flow characteristics of the asset.

h) Trading assets and liabilities

Trading assets and liabilities are those assets and liabilities that the Bank acquires or incurs principally for the purpose of selling or repurchasing in the near term, or holds as part of a portfolio that is managed together for short-term profit or position taking. Trading assets and liabilities are initially recognised and subsequently measured at fair value in the statement of financial position with transaction costs taken directly to profit or loss. All changes in fair value are recognised as part of net trading income in profit or loss. Trading assets and liabilities are not reclassified subsequent to their initial recognition.

i) Loans and advances

Loans and advances are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and that the bank does not intend to sell immediately or in the near term. When the Bank is the lessor in a lease agreement that transfers substantially all of the risks and rewards incidental to ownership of an asset to the lessee, the financial asset is recognised within loans and advances. When Bank purchases a financial asset under a commitment to sell the asset (or a substantially similar asset) at a fixed price on a future date ("reverse repo or stock borrowing"), the financial asset is accounted for as a loan, and the underlying asset is not recognised in the Bank's financial statements. Loans and advances are initially measured at fair value plus incremental direct transaction costs, and subsequently measured at their amortised cost using the effective interest method, except when the Bank chooses to carry the loans and advances at fair value through profit or loss as described in the accounting policies.

SEKYEDUMASE RURAL BANK PLC
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED 31 DECEMBER, 2025

j) Investment securities

Investment securities are initially measured at fair value plus incremental direct transaction costs and subsequently accounted for depending on their classification as either hold to collect, hold to sell or hold to collect and sell.

(i) Hold -to-collect

Hold -to- collect investments are non-derivative assets with fixed or determinable payments and fixed maturity that the Bank has the positive intent and ability to hold to collect, and which are not designated at hold to sell or hold to collect and sell.

Hold -to- collect investments are carried at amortised cost using the effective interest method. It must be noted that IFRS 9 only considers fair value and amortised cost based on the business models for managing financial asset and the contractual cash flow characteristics of the financial asset. Thus all Hold -to- collect assets are classified as amortised cost.

(ii) Hold -to- sell

The Bank carries some investment securities at fair value, with fair value changes recognised immediately in profit or loss as described in the accounting policies.

(iii) Hold -to- collect and sell

Hold to collect and sell investments are non-derivative investments that are not designated as another category of financial assets. Unquoted equity securities whose fair value cannot be reliably measured are carried at amortised cost. All other hold -to- collect and sell investments are carried at fair value.

Interest income is recognised in profit or loss using the effective interest method. Dividend income is recognised in profit or loss when the bank becomes entitled to the dividend.

Other fair value changes are recognised directly in equity until the investment is sold or impaired and the balance in equity is transferred to profit or loss. Other fair value changes are recognised directly in equity until the investment is sold or impaired and the balance is transferred to profit or loss.

k) Property, plant and equipment

(i) Recognition and measurement

Items of property and equipment are measured at cost less accumulated depreciation and impairment losses. Cost includes expenditure that is directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labour, any other costs directly attributable to bringing the asset to a working condition for its intended use, and the costs of dismantling and removing the items and restoring the site on which they are located. Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment. When components of an item of property or equipment have different useful lives, they are accounted for as separate items (major components) of property and equipment.

(ii) Subsequent costs

The cost of replacing part of an item of property or equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Bank and its cost can be measured reliably. The costs of the day-to-day servicing of property and equipment are recognised in profit or loss as incurred.

(iii) Revaluation model

After recognition of an asset, an item of property, plant and equipment whose fair value can be measured reliably shall be carried at a revalued amount, being the fair value at the date of the revaluation less any subsequent accumulated depreciation and accumulated impairment losses.

Revaluations are made with sufficient regularity to ensure that the carrying amount does not differ materially from that which would be determined using fair value at the end of the reporting period.

Revaluation model is used for only property and surpluses on such revaluations are restricted to tier two capital with respect to capital adequacy ratio computation.

SEKYEDUMASE RURAL BANK PLC
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED 31 DECEMBER, 2025

(iv) Depreciation

Depreciation is recognised in profit or loss on a straight-line basis over the estimated useful lives of each item of property, plant and equipment. Leased assets are depreciated over the shorter of the lease term and their useful lives. Land is not depreciated.

The estimated useful lives are as follows:

Buildings	50 years
Plant & Machinery	5 years
Motor Vehicles	4 years
Office Equipment	4 years
Office Furniture and Fittings	5 years
Computers & Accessories	4 years

Depreciation methods, useful lives and residual values are reassessed at each reporting date.

l) Right of use – leased offices

Leases in terms of which the Bank assumes substantially all the risks and rewards of ownership are classified as right of use. Upon initial recognition the leased asset is measured at an amount equal to the lower of its fair value and the present value of the minimum lease payments. Subsequent to initial recognition, the asset is accounted for in accordance with the accounting policy applicable to that asset.

m) Impairment of non-financial assets

The carrying amounts of the Bank's non-financial assets, other than deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists then the asset's recoverable amount is estimated.

An impairment loss is recognised if the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. A cash-generating unit is the smallest identifiable asset group that generates cash flows that largely are independent from other assets and groups.

Impairment losses are recognised in profit or loss. Impairment losses recognised in respect of cash-generating units are allocated first to reduce the carrying amount allocated to the units and then to reduce the carrying amount of the other assets in the unit on a pro rata basis.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In respect of other assets, impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

n) Provisions

A provision is recognised if, as a result of a past event, the bank has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

A provision for onerous contracts is recognised when the expected benefits to be derived by the bank from a contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established the Bank recognises any impairment loss on the assets associated with that contract.

SEKYEDUMASE RURAL BANK PLC
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED 31 DECEMBER, 2025

o) Employee benefits

The Bank contributes to two defined contribution schemes (Social Security Fund and Provident Fund) on monthly basis on behalf of employees and the last month outstanding contribution is included in creditors and accruals.

i) Social security and national insurance trust (SSNIT)

Under a National Deferred Benefit Pension Scheme, the Bank contributes 13% of employee's basic salary in addition to 5.5% deduction from employees basic salary to SSNIT and Vanguard Life Pension Scheme for employee pensions. The bank's obligation is limited to the relevant contributions, which were settled on due dates. The pension liabilities and obligations, however, rest with SSNIT and Vanguard Life Pension Scheme.

ii) Provident fund

The Bank has a provident fund scheme for all employees. Employees contribute 4.5% of their basic salary to the fund whilst the Bank contributes 7%. The obligation under the plan is limited to the relevant contribution and these are settled on due dates.

(iii) Termination benefits

Termination benefits are recognised as an expense when the Bank is demonstrably committed, without realistic possibility of withdrawal, to a formal detailed plan to employees who have reached their statutory retirement date.

(iv) Short-term benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A provision is recognised for an amount expected to be paid under short-term cash if the Bank has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

p) Share capital and reserves

(i) Ordinary shares

The Bank classifies capital instruments as financial liabilities or equity instruments in accordance with the substance of the contractual terms of the instrument.

(ii) Share issue costs

Incremental costs directly attributable to the issue of an equity instrument are deducted from the initial measurement of the equity instruments.

q) Earnings per share

The Bank presents basic and diluted earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Bank by the number of shares existing as at 31st October. Diluted EPS is determined by the number of shares existing at the end of December.

r) Dividends

Dividends are recognised as a liability in the period in which they are declared. Dividend receivable from unquoted investments is recognized when the Bank's right to receive the dividend is established.

s) Acceptances, letters of credit, financial guarantees and commitments

Acceptances, letters of credits, financial guarantees and commitments are considered contingent liabilities and are disclosed unless the possibility of an outflow of resources involving economic benefit is remote.

t) Borrowings

Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortised cost using the effective interest method, any differences between proceeds net of transaction costs and the redemption value is recognised in the income statement over the period of the borrowings. Borrowings and other forms of financial liabilities shall be de-recognised

SEKYEDUMASE RURAL BANK PLC
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED 31 DECEMBER, 2025

from the books only when they are extinguished, i.e. when the obligation specified in the contract is discharged or cancelled or expired.

u) Application of new and revised International Financial Reporting Standards (IFRS)

i) The standard and interpretation that are issued, but not yet effective, or to the date of issuance of the Bank's financial statements is disclosed below. The Bank intends to adopt this standard if applicable, when it become effective.

IFRS 17 "Insurance Contract" (effective for annual period beginning on or after 1 January, 2025).

The Bank has elected not to adopt this new standard in advance of their effective date. The Bank anticipates that the adoption of this standard and amendment to existing standards will have no material impact on the financial statements of the Bank in the period of initial application.

ii) IFRS 9 financial Instruments

In July 2014, the IASB issued the final version of IFRS 9 Financial Instruments that replaces IAS 39 Financial Instruments: Recognition and Measurement and all previous versions of IFRS 9. IFRS 9 brings together all three aspects of the accounting for financial instruments: classification and measurement, impairment and hedge accounting. It is effective for annual periods beginning on or after 1 January, 2018, with early application permitted. The Bank adopted this standard effective 1 January, 2018 and did not restate comparative information or apply it retrospectively.

a) Classification and measurement

The Bank does not expect a significant impact on its balance sheet or equity in applying the classification and measurement requirements of IFRS 9. It expects to continue measuring at fair value all financial assets currently held at fair value.

b) Impairment

IFRS 9 requires the bank to record expected credit losses on all of its debt securities, loans and trade receivables, either on a 12-month or lifetime basis. The bank applies the simplified approach and calculate expected losses on all its instruments.

Impairment loss schedule - 2025:

Impairment Loss Classification	Stage 1	Stage 2	Stage 3	Total
	12-months	Lifetime ECL not	Lifetime ECL	
	ECL	credit impaired	Credit impaired	
	GH¢	GH¢	GH¢	GH¢
Loans Loss Allowance - IFRS	344,825	538	3,949,917	4,295,280
	344,825	538	3,949,917	4,295,280
Impairment Loss Classification per BOG Guidelines				3,980,433
Increase				314,846

Impairment loss schedule - 2024:

Impairment Loss Classification	Stage 1	Stage 2	Stage 3	Total
	12-months	Lifetime ECL not	Lifetime ECL	
	ECL	credit impaired	Credit impaired	
	GH¢	GH¢	GH¢	GH¢

YEAR ENDED 31 DECEMBER, 2025

v) Government of Ghana Bonds

i) Modification assessment

The IFRS 9 indicates that the modification of a contractual cash flow of a financial asset can lead to its derecognition although there is no explicit guidance on when modification of a financial asset leads to a derecognition.

The bank used the IFRS 9 principles to assess for modification where the financial instrument terms change, an assessments performed to ascertain if the new terms are significantly different from the old terms. The bank assessed its bonds under the Ghana Domestic Debt Exchanges (GDDE) programme for the exchange of old bonds for new ones and the result was a substantial modification due to the following:

- A holder of a single bond or portfolio of bonds will receive in exchange four bond with different maturities and cash flows.
- The new bonds involve a significant extension of maturity dates and coupon rates.

The bank will subsequently derecognise the old and a new asset recognised for the new bonds.

ii) Impairment

Per IFRS 9, an asset qualifies for impairment if an event occurs that has a detrimental impact on the estimated cash flows of the asset including:

- The significant financial difficulty of the issuer or borrower.
- A breach of contract including default in repayment.
- The absence of an active market for the financial asset.

The bank's assessment of its bonds with the government concluded that the bonds should be credit impaired. The impairment assessment was done by discounting the future cash flows under the new bonds using the Institute of Chartered Accountants Ghana (ICAG) recommended discount factor and comparing the same with the carrying amount of the old bonds.

iii) Fair valuation

The price of bonds is measured using either the market approach and/or the income approach. With the market approach, the prevailing quoted prices on the bond market are applied whilst with the income approach future cash flows are discounted using an appropriate discount rate to their present values.

An active market for the new bonds is yet to develop, hence the discounted cash flow method under the income approach is used as the valuation method to determine the fair value of the new bonds.

Financial risk management

a) Introduction and overview

The Bank's activities expose the business to risks. These risks are managed in a targeted manner. Key risks arising from core functions are identified and measured to facilitate managing and determining risk positions and capital allocations. The Bank has exposure to the following risks from the use of financial instruments.

- | | |
|--------------------|---------------------|
| - credit risk | - compliance risk |
| - liquidity risk | - capital risk |
| - market risk | - legal risk |
| - operational risk | - reputational risk |

This note presents information about the Bank's exposure to these risks, including the objectives, policies and processes for measuring and managing the risks as well as their impact on earnings and capital.

SEKYEDUMASE RURAL BANK PLC
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED 31 DECEMBER, 2025

Risk management framework

The Board has overall responsibility for the establishment and oversight of the Bank's risk management framework. The Board has established the Finance, Audit and Compliance, Credit, Risk and Procurement Committees which are responsible for developing and monitoring the Bank's risk management policies in their specified areas. All Board committees have non-executive members and report the Board on their activities.

The risk management policies are established to identify and analyse the risks faced by the Bank, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions, products and services offered. The Bank through its training and management standards and procedures, aims to develop a disciplined and constructive control environment, in which all employees understand their roles and obligations. The Bank's Finance, Audit and Compliance Committee is responsible for monitoring compliance with the Bank's risk management policies and procedures, and for reviewing the adequacy of the risk management framework in relation to the risks faced by the Bank. The Bank Finance, Audit and Compliance Committee is assisted in these functions by Internal Audit. Internal Audit undertakes both regular and ad-hoc reviews of risk management controls and procedures, the results of which are reported to the Finance, Audit and Compliance Committee.

b) Credit risk

Credit risk is the risk of financial loss to the Bank if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the bank's loans and advances to customers and other banks and investment securities. For risk management reporting purposes, the Bank considers consolidates all elements of credit risk exposure. For risk management purposes, credit risk arising on trading securities is managed independently, but reported as a component of market risk exposure.

Management of credit risk

The Board has delegated responsibility for the management of credit risk to its Bank Credit Committee. A separate Bank credit department, reporting to the Bank Credit Committee, is responsible for oversight of the Bank's credit risk, including:

- Formulating credit policies covering collateral requirements, credit assessment, risk grading and reporting, documentary and legal procedures, and compliance with regulatory and statutory requirements.
- Establishing the authorisation and structure for the approval and renewal of credit facilities. Authorisation limits are allocated to branch managers. Larger facilities require approval by the head of credit, the Chief Executive Officer and the Board of Directors as appropriate.
- Reviewing and assessing credit risk. The Bank credit committee assesses all credit exposures in excess of designated limits, prior to facilities being committed to customers by the business unit concerned. Renewals and reviews of facilities are subject to the same review process.
- Limiting concentrations of exposure to counterparties, geographies and industries (for loans and advances), and by issuer, credit rating band and market liquidity (for investment securities).
- Developing and maintaining the Bank's risk grading in order to categorise exposures according to the degree of risk of financial loss faced and to focus management on the attendant risks. The risk grading system is used in determining where impairment provisions may be required against specific credit exposures. The current risk grading framework consists of various grades reflecting varying degrees of risk of default and the availability of collateral or other credit risk mitigation. The responsibility for setting risk grades lies with the final approving executive committee as appropriate. Risk grades are subject to regular reviews by the Bank risk function.
- Reviewing compliance with agreed exposure limits, including those for selected industries and product types. Regular reports are provided to the Bank credit committee on the credit quality of portfolios and appropriate corrective action being taking.
- Providing advice, guidance, specialist skills and training to promote best practice throughout the Bank in the management of credit risk.

SEKYEDUMASE RURAL BANK PLC

NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED 31 DECEMBER, 2025

Each branch is required to implement Bank credit policies and procedures, with credit approval authorities delegated from the bank Credit Committee. Each branch has a credit risk officer who reports on all credit related matters to local management and the bank credit committee. Each branch is responsible for the quality and performance of its credit portfolio and for monitoring risks in its portfolios, including those subject to central approval. Regular audits of business units and Bank credit processes are undertaken by Internal Audit.

Impaired loans and securities

Impaired loans and securities are loans and securities for which the Bank determines that it is probable that it will be unable to recover all principal and interest due according to the contractual terms of the loan/securities agreement(s). Interest on these loans are calculated and treated on non-accrual basis and portions shall only be considered when payments (settlement) are made.

Loans with renegotiated terms

Loans with renegotiated terms are loans that have been restructured due to deterioration in the borrower's financial position and where the bank has made concessions that it would not otherwise consider. The status or risk grade of a restructured facility does not change until there is evidence of performance over a reasonable period of time. When the contractual cash flows of a financial asset are renegotiated or otherwise modified and the renegotiation or modification does not result in the derecognition of that financial asset, the Bank shall recalculate the gross asset, the Bank shall recalculate the gross financial asset, carrying amount of the financial asset and shall recognise a modification gain or loss in profit or loss. The gross carrying amount of the financial asset shall be recalculated as the present value of the renegotiated or modified contractual cash flows that are discounted at the financial asset's original effective interest rate (or credit adjusted effective interest rate for purchased or originated credit-impaired financial assets). Any costs or fees that are incurred will adjust the carrying amount of the modified financial asset and are amortised over the remaining term of the modified financial asset.

Allowances for impairment

The Bank establishes an allowance for impairment losses that represents the estimate of incurred losses in the loan portfolios. The main components of this allowance are a specific loss component that relates to individually significant exposures, and a collective loan loss allowance established for groups of homogeneous assets in respect of losses that have been incurred but have not been identified on loans subject to individual assessment for impairment.

In conformity with Bank of Ghana's directives, the minimum provision that are held are as follows;

Credit risk rating	Days past due	Prov.
Current	Less than 30	1%
Olem	31 - 90	10%
Sub-standard	91 -180	25%
Doubtful	181 - 360	50%
Loss	Over 360	100%

SEKYEDUMASE RURAL BANK PLC
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED 31 DECEMBER, 2025

Impairment losses

The ageing and impairment of Loans and Advances at the reporting date was:

		2025		2024	
		Gross Amount	Impairment	Gross Amount	Impairment
		GH¢	GH¢	GH¢	GH¢
Current	0-30 days	8,843,869	70,389	5,401,926	41,632
Olem	31 - 90 days	1,991	199	559,801	55,980
Sub-Standard	91-180 days	6,704	1,676	532,645	133,161
Doubtful	181-360 days	90,089	35,045	217,402	108,701
Loss	> 360 days	3,877,140	3,873,124	3,967,823	3,967,823
		12,819,793	3,980,433	10,679,597	4,307,297

Write-off policy

The Bank writes off a loan when it determines that the loans are uncollectible. This determination will be reached after considering information such as the occurrence of significant changes in the borrower/ issuer's financial position such that the borrower or issuer can no longer discharge the obligation, or that proceeds from collateral will not be sufficient to pay back the entire exposure. Related and connected lending is not permitted to be written off.

Collateral of impaired exposures

The Bank holds collateral against loans and advances to customers in the form of mortgage interests over property, other registered securities over assets, and guarantees. Estimates of fair value are based on the value of collateral assessed at the time of borrowing, and generally are not updated except when a loan is individually assessed as impaired. Collateral is not normally held for loans and advances to banks, except when securities are held as part of reverse repurchase and securities borrowing activity. Collateral is not usually held against investment securities, and no such collateral was held at 31 December 2025. An estimate of the fair value of collateral and other security enhancements held against financial assets is shown below.

It must however be noted that collateral values for impaired loans are at cash flows of the forced sale values less estimated costs of sale as discounted to present values:

	Loans and advances to customers 2025 GH¢	Loans and advances to customers 2024 GH¢
Cash and near cash instruments	3,933,964	2,318,605
	3,933,964	2,318,605

Repossessed assets

The Bank did not repossessed any customer's asset during the period. If the Bank would have repossessed, the type and carrying amount of collateral would have been the lower of its carrying amount and fair value less costs to sell:

All assets repossessed if any are to be sold within one year of possession and approval would be sought from Bank of Ghana for those for which efforts towards sale have not been successful within one year. The bank monitors concentrations of credit risk by sector. An analysis of concentrations of credit risk at the reporting date is shown below:

	8,524,514	5,620,126

c) Liquidity risk

Liquidity risk is the risk that the bank will encounter difficulty in meeting obligations to its financial liabilities as they fall due. The risk arises from mismatches in cash flows.

Management of liquidity risk

The Bank's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses that will damage the Bank's reputation.

The Head office receives information from branches regarding the liquidity profile of their financial assets and liabilities and details of other projected cash flows arising from projected future business. The Head office then maintains a portfolio of short-term liquid assets, largely made up of short-term liquid investment securities, loans and advances to banks and other bank facilities, to ensure that sufficient liquidity is maintained within the Bank as a whole. The liquidity requirements of branches are met through funds from Head Office to cover any short-term fluctuations and longer term funding to address any structural liquidity

requirements. When an operating branch is subject to a liquidity limit, it manages its liquidity within the regulatory limit in co-ordination with Head Office. Head Office monitors compliance of all operating branches with local regulatory limits on a daily basis. The daily liquidity position is monitored and regular conducted liquidity stress testing is under a variety of scenarios covering both normal and more severe market conditions. All liquidity policies and procedures are subject to review and approval by the finance and operations committee. Daily reports cover the liquidity position of the Bank. A summary report including any exceptions and remedial action taken, is submitted regularly to the finance and operations committee.

Exposure to liquidity risk

The key measure used by the Bank for managing liquidity risk is the ratio of net liquid assets to deposits from customers. For this purpose net liquid assets are considered as including cash and cash equivalents and investment securities for which there is an active and liquid market less any deposits from banks, debt securities issued, other borrowings and commitments maturing within the next month. Details of the net liquid assets to deposits and customers at the reporting date and during the reporting period were as follows;

	2025 %	2024 %
At 31 December	93.16	91.98
Average for the period	88.46	85.71
Maximum for the period	93.37	90.52
Minimum for the period	83.55	80.89

SEKYEDUMASE RURAL BANK PLC
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED 31 DECEMBER, 2025

d) Market risk

Market risk is the risk that changes in market prices, such as interest rate, equity prices, foreign exchange rates and credit spreads (not relating to changes in the obligor's / issuer's credit standing) will affect the Bank's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return on risk.

Management of market risk

The Bank separates its exposure to market risk between trading and non-trading portfolios. Trading portfolios mainly are held by the treasury unit, and include positions arising from market making and proprietary position taking, together with financial assets and liabilities that are managed on a fair value basis. Overall authority for market risk is vested in credit committee. The bank is responsible for the development of detailed risk management policies (subject to review and approval by the credit committee) and for the day-to-day review of their implementation.

(e) Operational risk

Operational risk is the risk of direct or indirect loss arising from a wide variety of causes associated with the Bank's processes, personnel, technology and infrastructure, and from external factors other than credit, market and liquidity risks such as those arising from legal and regulatory requirements and generally accepted standards of corporate behaviour. Operational risks arise from all of the Bank's operations and are faced by all business entities. The Bank's objective is to manage operational risk so as to balance the avoidance of financial losses and damage to the Bank's reputation with overall cost effectiveness and to avoid control procedures that restrict initiative and creativity. The primary responsibility for the development and implementation of controls to address operational risk is assigned to senior management within each business unit. This responsibility is supported by the development of overall Bank standards for the management of operational risk in the following areas:

- requirements for appropriate segregation of duties, including the independent authorisation of transactions
- requirements for the reconciliation and monitoring of transactions
- compliance with regulatory and other legal requirements
- documentation of controls and procedures
- requirements for the periodic assessment of operational risks faced, and the adequacy of controls and procedures to address the risks identified
- requirements for the reporting of operational losses and proposed remedial action
- development of contingency plans
- training and professional development
- ethical and business standards
- risk mitigation, including insurance where this is effective.

Compliance with the bank standards is supported by a programme of periodic reviews undertaken by Internal Audit. The results of Internal Audit reviews are discussed with the management of the business unit to which they relate, with summaries submitted to the Audit Committee and senior management of the Bank.

(f) Capital risk

Capital risk management

The primary objectives of the Bank's capital management are to ensure that the Bank complies with externally imposed capital requirement by Bank of Ghana and that the Bank maintains strong credit ratings and healthy capital ratios in order to support its business and maximize shareholders' value. In order to maintain the desired level of capital, the Bank may vary its dividend policy or issue new shares. The Bank did not comply with all externally imposed capital requirement throughout the period.

SEKYEDUMASE RURAL BANK PLC
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED 31 DECEMBER, 2025

Regulatory capital management

The Bank of Ghana sets and monitors capital requirement for the bank. In implementing current capital requirement, Bank of Ghana requires the bank to maintain a prescribed ratio of total capital to total risk-weighted assets. The Bank is also required to maintain a credible capital plan to ensure that capital level of the bank is maintained in consonance with the bank's risk appetite. The banks regulatory capital is analysed in two tiers;

Tier 1 Capital, which includes ordinary share capital, perpetual bonds retained earnings, translation reserves and non -controlling after deductions for goodwill and other intangible assets and other regulatory adjustments relating to items that are included in equity but are treated differently for capital adequacy purposes.

Tier 2 Capital, which includes qualifying subordinated liabilities, and the element of the fair value reserve relating to unrealised gains on equity instruments classified as available-for-sale.

Various Limits are applied to elements of the capital base. Qualifying tier 2 capital cannot exceed tier 1 capital and qualifying term subordinated loan capital may not exceed 50% of tier 1 capital. Other deductions from capital include the carrying amounts of investments in subsidiaries that are not included in the regulatory consolidation, investments in the capital of banks and certain other regulatory items. Banking operations are categorised as either trading book or banking book, and risk-weighted assets are determined according to specified requirements that seek to reflect the varying levels of risk attached to assets and off-balance sheet exposures.

The Bank's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. The impact of the level of capital on shareholders' return is also recognised and the Bank recognises the need to maintain a balance between the higher returns that might be possible with greater gearing and the advantages and security afforded by a sound capital position. The bank could not comply with all externally imposed capital requirements throughout the period. There have been no material changes in the Bank's management of capital during the period. The Bank's regulatory capital position at 31 December was as follows:

(g) Compliance and regulatory risk

In order to strengthen the Bank's compliance with regulatory requirements, the Bank organises series of dedicated training on a regular basis to equip staff with compliance and regulatory issues in order to minimise risk emanating therefrom.

(h) Legal risk

The Bank's activities are undertaken in a manner which adequately reduces the risks which may arise out of material litigation to be initiated against it (the bank).

(i) Reputational risk

The Bank conducts its business in a responsible, professional and transparent manner. The Bank safeguards the interest of its clients as well as its reputation. This is aimed at demonstrating our commitment and fostering a long term relationship with our clients and the public at large. We manage our image and reputation in a professional manner.

Capital allocation

The allocation of capital between specific operations and activities is, to a large extent, driven by optimisation of the return achieved on the capital allocated. The amount of capital allocated to each operation or activity is based primarily upon the regulatory capital, but in some cases the regulatory requirements do not reflect fully the varying degree of risk associated with different activities. In such cases the capital requirements may be flexed to reflect differing risk profiles, subject to the overall level of capital to support a particular operation or activity not falling below the minimum required for regulatory purposes. The process of allocating capital to specific operations and activities is undertaken independently of those responsible for the finance and operation and is subject to review by the bank as appropriate.

Although maximisation of the return on risk-adjusted capital is the principal basis used in determining how capital is allocated within the bank to particular operations or activities, it is not the sole basis used for decision making. Consideration also is made of synergies with other operations and activities, the availability of management and other resources, and the capability of the activity with the bank's longer term strategic objectives. The bank's policies in respect of capital management and allocation are reviewed regularly by the Board of Directors.

SEKYEDUMASE RURAL BANK PLC
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED 31 DECEMBER, 2025

Use of estimates and judgements

Management discussed with the board the development, selection and disclosure of the bank critical accounting policies and estimates, and the application of these policies and estimates. These disclosures supplement the commentary on financial risk management (see notes).

Key sources of estimation uncertainty

Allowances for credit losses

Assets accounted for at amortised cost are evaluated for impairment on a basis described in the accounting policy. The individual counterparty component of the total allowances for impairment applies to claims evaluated individually for impairment and is based on management's best estimate of the present value of the cash flows that are expected to be received. In estimating these cash flows, management makes judgements about counterparty's financial situation and the net realisable value of any underlying collateral. Each impaired asset is assessed on its merits, and the workout strategy and estimate of cash flows considered recoverable are independently approved by the credit risk function.

Collectively assessed impairment allowances cover credit losses inherent in portfolios of claims with similar characteristics when there is objective evidence to suggest that they contain impaired claims, but the individual impaired items cannot yet be identified. A component of collectively assessed allowances is for country risks. In assessing the need for collective loan loss allowances, management considers factors such as credit quality, portfolio size, concentrations, and economic factors. In order to estimate the required allowance, assumptions are made to define the way inherent losses are modelled and to determine the required input parameters, based on historical experience and current economic conditions. The accuracy of the allowances depends on how well these estimated future cash flows for specific counterparty allowances and the model assumptions and parameters are used in determining collective allowances.

Determining fair values

The determination of fair value for financial assets and liabilities for which there is no observable market price requires the use of valuation techniques as described in the accounting policy. For financial instruments that trade infrequently and have little price transparency, fair value is less objective, and requires varying degrees of judgement depending on liquidity, concentration, uncertainty of market factors, pricing assumptions and other risks affecting the specific instrument.

Critical accounting judgements in applying the bank's accounting policies

Critical accounting judgements made in applying the bank's accounting policies include:

Financial asset and liability classification

The bank's accounting policies provide scope for assets and liabilities to be designated on inception into different accounting categories in certain circumstances:

- In classifying financial assets or liabilities as "trading", the bank has determined that it meets the description of trading assets and liabilities set out in the accounting policy.
- In designating financial assets or liabilities at fair value through profit or loss, the bank has determined that it has met one of the criteria for this designation set out in the accounting policy.
- In classifying financial assets as held-to-maturity, the bank has determined that it has both the positive intention and ability to hold the assets until their maturity date as required by the accounting policy.

Financial assets and liabilities

Accounting classifications and fair values

The table below sets out the bank's classification of each class of financial assets and liabilities, and their fair values (excluding accrued interest).

Earnings per share

Basic earnings per share

The calculation of basic earnings per share at 31 December, 2025 was based on the profit attributable to the ordinary shareholders of GH¢4,885,297 (2024: GH¢4,144,289) and number of ordinary shares of 31,718,252 (2024: 10,446,152) as at 31st December:

	2025 GH¢	2024 GH¢
Profit attributable to ordinary shareholders		
Net Profit for the period attributable to equity holders of the Bank	4,885,297	4,144,289
Weighted average number of ordinary shares		
Issued ordinary shares at 1 January	10,446,152	10,392,352
Effect of share issued as at 31 December	21,272,100	53,800
Number of ordinary shares at 30 September	31,718,252	10,446,152

Diluted earnings per share

The calculation of diluted earnings per share at 31st December 2026 was based on the profit attributable to ordinary shareholders of GH¢4,885,297 (2024: GH¢4,144,289).

Profit attributable to ordinary shareholders (diluted)

Profit for the period attributable to ordinary shareholders	4,885,297	4,144,289
Weighted average number of ordinary shares (diluted)		
Number of ordinary shares (basic)	10,446,152	10,392,352
Effect of share purchase after 31 December	21,272,100	53,800
Number of ordinary shares (diluted) at 31 December	31,718,252	10,446,152

i. Dividend per share

At the Annual General Meeting to be held in 2026, the Board do not recommend the payment of dividend for the year ended 31 December, 2025 (2024 – Nil) based on Bank of Ghana directive (Notice No. BG/GOV/SEC/2020/03) dated 20th April, 2020. There is no tax consequence since no dividend is recommended.

Shares in treasury

There is no share in treasury and no call or instalment unpaid on any share.

Income surplus

This represents the residual of cumulative annual profits that are available for distribution to shareholders.

The Directors approved a transfer of GH¢2,000,000 from Income Surplus to Stated Capital in order to strengthen the Bank's capital base. The transfer remains subject to the final approval by Bank of Ghana.

Statement of changes in issued number of shares

	Ordinary Shares 2025	Ordinary Shares 2024
On issue at 1 January	10,446,152	10,392,352
Number of shares issued during the year	1,272,100	53,800
Transfer from income surplus	20,000,000	-
On issue at 31 December	31,718,252	10,446,152

At 31 December 2025 the authorised share capital comprised 800,000,000 ordinary shares (2024: 800,000,000). The shares are of no par value. All issued shares are fully paid. The holders of ordinary shares are entitled to receive dividends as declared from time to time and are entitled to one vote per share at meetings of the shareholders. All shares rank equal with regard to the bank's residual assets.

SEKYEDUMASE RURAL BANK PLC
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED 31 DECEMBER, 2025

	2025 GH¢	2024 GH¢
Dividend		
GH¢0.0000 per ordinary share (2025)	-	-
GH¢0.0000 per ordinary share (2024)	-	-
	-	-

No dividend was proposed by the directors for the year ended 31 December, 2025. No provision was therefore made in the statement of profit or loss and other comprehensive income or statement of financial position and there is no income tax consequence.

	2025 GH¢	2024 GH¢
1. Revaluation reserve		
Balance at begin	4,794,021	4,794,021
Additions	-	-
Balance at end	4,794,021	4,794,021

This represents bonus share issue from ARB Apex Bank and Revaluation surplus on the bank's office buildings.

	2025 GH¢	2024 GH¢
2. Statutory reserve fund		
Balance at begin	1,862,173	1,344,137
Transfer from income surplus	610,662	518,036
Balance at end	2,472,835	1,862,173

This is a non-distributable reserve. The current years transfers to Statutory Reserve represented 12.5% of the net profit after tax and before dividend. The transfer is in compliance with section 34 of the Banks and Specialised Deposit - Taking Institutions Act, 2016. There was a transfer of GH¢610,662 from the income surplus account during the year (2024: GH¢518,036).

	2025 GH¢	2024 GH¢
3. Credit risk reserve		
Balance at begin	-	552
Transfer to income surplus	-	(552)
	-	-
Transfer from income surplus	-	-
Balance at end	-	-

Where the IFRS impairment rules result in a lower provision than would be the case if the BOG's prudential norms were applied, the difference should be charged to Income Surplus and credited to a Credit Risk Reserve and in the case the opposite happens subsequently a reversal should be made to the extent of the credit balance in the Credit Risk Reserve. The Credit Risk Reserve so created is not available for distribution as dividend but included in the adjusted capital base for purposes of the Capital Adequacy Ratio (CAR) computation.

Contingencies

Legal proceedings

- The bank has instituted civil actions against one investment company and eleven loan defaulters. All these cases are most likely to go in favour of the bank.
- A claim for wrongful termination of appointment and damages.
A claim from the former employee regarding a purported wrongful termination of her appointment. Judgement in respect of this case has not been determined as at the year end. No provision has been recognised in the financial statements as legal advice indicates that it is not probable that a significant liability will arise.

SEKYEDUMASE RURAL BANK PLC
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED 31 DECEMBER, 2025 .

Related parties

(a) Transactions with directors

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financing or operating decisions or one other party controls both. Transactions in the normal course of business with directors are hereby referred to as related party. They are as follows:

	2025 GH¢	2024 GH¢
(i) Loans to directors		
Outstanding as at 1 January	-	-
Granted during the year	-	-
Repayment during the year	-	-
Outstanding as at 31 December	<u>-</u>	<u>-</u>
(ii) Emoluments of the directors		
Meeting expenses	<u>197,519</u>	<u>226,265</u>
	197,519	226,265

(b) Transactions with key management personnel

Key management personnel are defined as those persons having authority and responsibility for planning, directing and controlling the activities of the bank and comprise the Senior Management of the bank. These are as follows:

	2025 GH¢	2024 GH¢
(i) Loans to key management staff		
Outstanding as at 1 January	154,866	232,757
Granted during the year	139,800	114,408
Repayment during the year	(201,110)	(192,299)
Outstanding as at 31 December	<u>93,556</u>	<u>154,866</u>

Loans to key management staff were given at concessionary rates lower than rates that would be charged in an arm's length transaction. The loans are secured by the provident fund of the respective borrowers.

(ii) Emoluments to key management staff

Key management salaries	<u>673,901</u>	<u>539,954</u>
	673,901	539,954

36. Country analysis

All assets and liabilities of the bank are held in Ghana.

37. Comparative figures

Where necessary, figures within the notes of the financial statements have been restated to either conform to changes in presentation in the current year or for the adoption of new IFRS requirement.
